REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: This application teaches an effect pigment comprising a platy titanium dioxide that contains less than 20 weight percent of a substrate based on the total weight of said effect pigment and has a surface comprising reduced titanium dioxide and a method of preparing the effect pigment. Newly cited U.S. Patent 5,985,020 teaches a plateletlike titanium dioxide reduction pigment but fails to teach or fairly suggest that the titanium dioxide pigment has a substrate and that substrate is present in an amount of less than 20 weight percent as claimed by applicants. Accordingly, this application is allowable over the art cited in the Search Report dated July 5, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helene Klemanski whose telephone number is (571) 272-1370. The examiner can normally be reached on Monday-Friday 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on (571) 272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
